OLDSCHOOOOOOOL. gets kinda easy as you start to understand the games mechanics, but very fun and very deep.. The golden weapons are the only clone weapons to be designed very well. Its not a simple recolor like those awful neon weapons. The base texture was remade (as in no sign of damage, scratches to the gun), designs were more though out and they added a new layer to make them SHINE! Their HUD icons are even made yellow instead of the traditional red.

Id recommend buying these. There is no need to be butthurt just because "they are reskins", these are optional and profit of these DLCs help fund KF2. The only reason to complain is if the reskin was lacking in quality, which these beauties definitely are not lacking.. Very funny and cute.

10/10. The name of this game is an insult to the original Jagged Alliance.

R.I.P. forever

7/10

Good things about this game: Perfect storyline, no-bad graphics, and funny puzzles.

The defects are quite obvious as well. I have come across bugs and game breakdowns quite a few times.

And personally I hate jumpscare and this game is, especially in the first half part, full of jumpscare, not that I'm a fainted-heart, but I just prefer a terrifying atmosphere than a ugly mug jumping on to my face LOL.

RECOMMENDED.. <https://forum.paradoxplaza.com/forum/index.php?threads/price-increase.1022680>. I played the game when it was first released and it was great and exactly what I liked about Alien, its story and its horror. I came back to the game to get all 100% of the achievements and to play it on hard mode and to "One Shot" it. I fell in love with it, finding the Alien to be very smart. It took time to outwit it and to learn what it does and not do. Due to this immersion feature. I tried out Survival mode. The base game only had 1 level. A little disappointing but I liked the idea of escaping the level and finding the bonus objectives for your own enjoyment. During the Summer Steam sale, I went ahead and got the Season Pass and I was glad that I did. I only recommend the Season Pass if you enjoy outwiting the Alien over and over and over again while not fully looking for a story. I would not pay more than \$5 for it due to it not having a lot of story but the level design and different array of enemies on some of the levels are worth it. Safe Haven and Lost Contact are great game concepts and love replayability of the levels.. very fun and fun for all ages
. doesnt have a good tutorial, refunding :/. Was uncomfortable. Good story. Would experience again.
